WHO WE ARE?

FlexCoders is a career-focused EdTech platform based in Hyderabad, dedicated to transforming students into job-ready IT professionals before graduation. We bridge the gap between academic learning and real-world industry requirements through **skill-oriented training, hands-on projects,** and industry-driven mentorship.

At FlexCoders, we follow a hands-on, outcome-driven approach led by industry experts from MNCs. Our programs include **real-time projects, concept-wise mock interviews by professionals,** and strong focus on communication, resume building, and interview readiness.

We guide students early in their academic journey through career guidance and domain selection programs. With continuous mentorship and placement-focused **preparation, FlexCoders acts as a career transformation partner, helping learners become confident, job-ready IT professionals.**

Take the Right Turn, With us!

Starting point For Your Career Path

Our Mission & Vision

FlexCoders operates with a strong industry-first approach, designing training programs that reflect real workplace expectations. By integrating hands-on projects, expert guidance, and interview readiness, we enable students to transition smoothly from campus to corporate roles.

MISSION

At FlexCoders, our mission is to bridge the gap between academic education and industry expectations by delivering practical, skill-oriented, and career-focused training. We aim to empower students and early-career professionals with in-demand technical skills, real-time project experience, strong problem-solving abilities, and effective communication skills.

VISION

FlexCoders' vision is to become a trusted and leading EdTech institution that empowers students with industry-relevant skills by bridging the gap between academic learning and real-world industry requirements. Through practical training, continuous mentorship, and career guidance, we aim to create confident, job-ready professionals with strong technical and communication skills, capable of succeeding in the competitive global IT market.

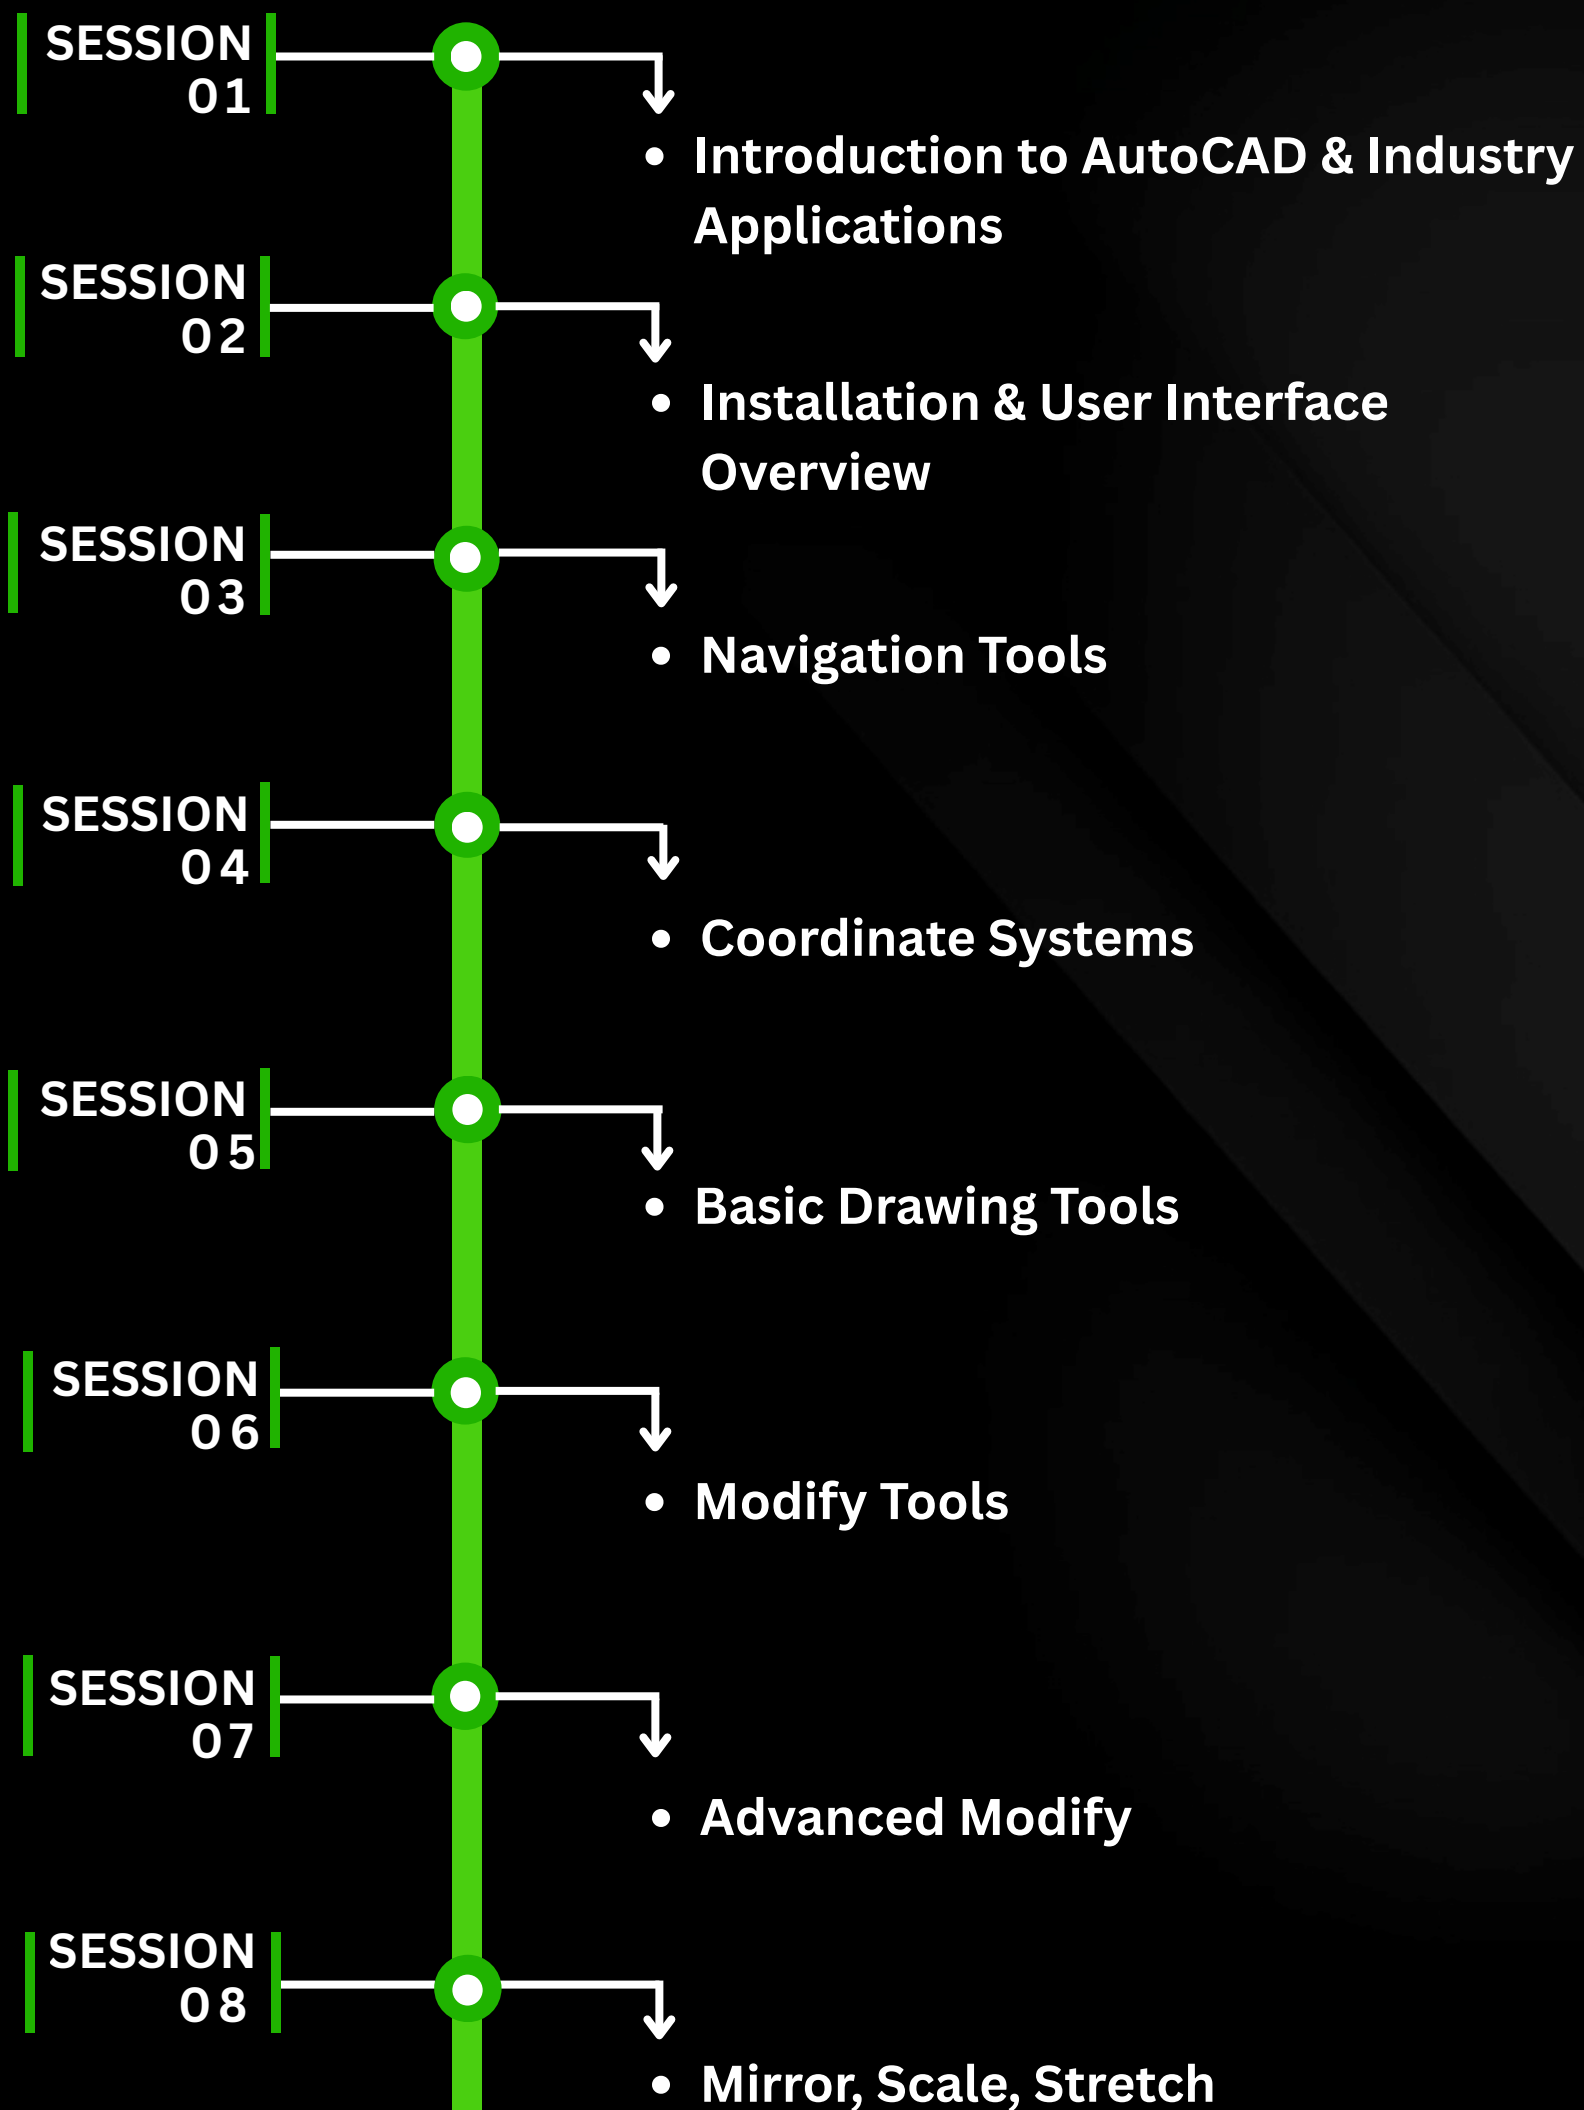

WHY FLEXCODERS

FlexCoders is focused on one thing—making students job-ready before graduation. With industry-expert trainers, real-time projects, recruiter-led mock interviews, and complete placement preparation, we don't just teach skills—we help students get hired.

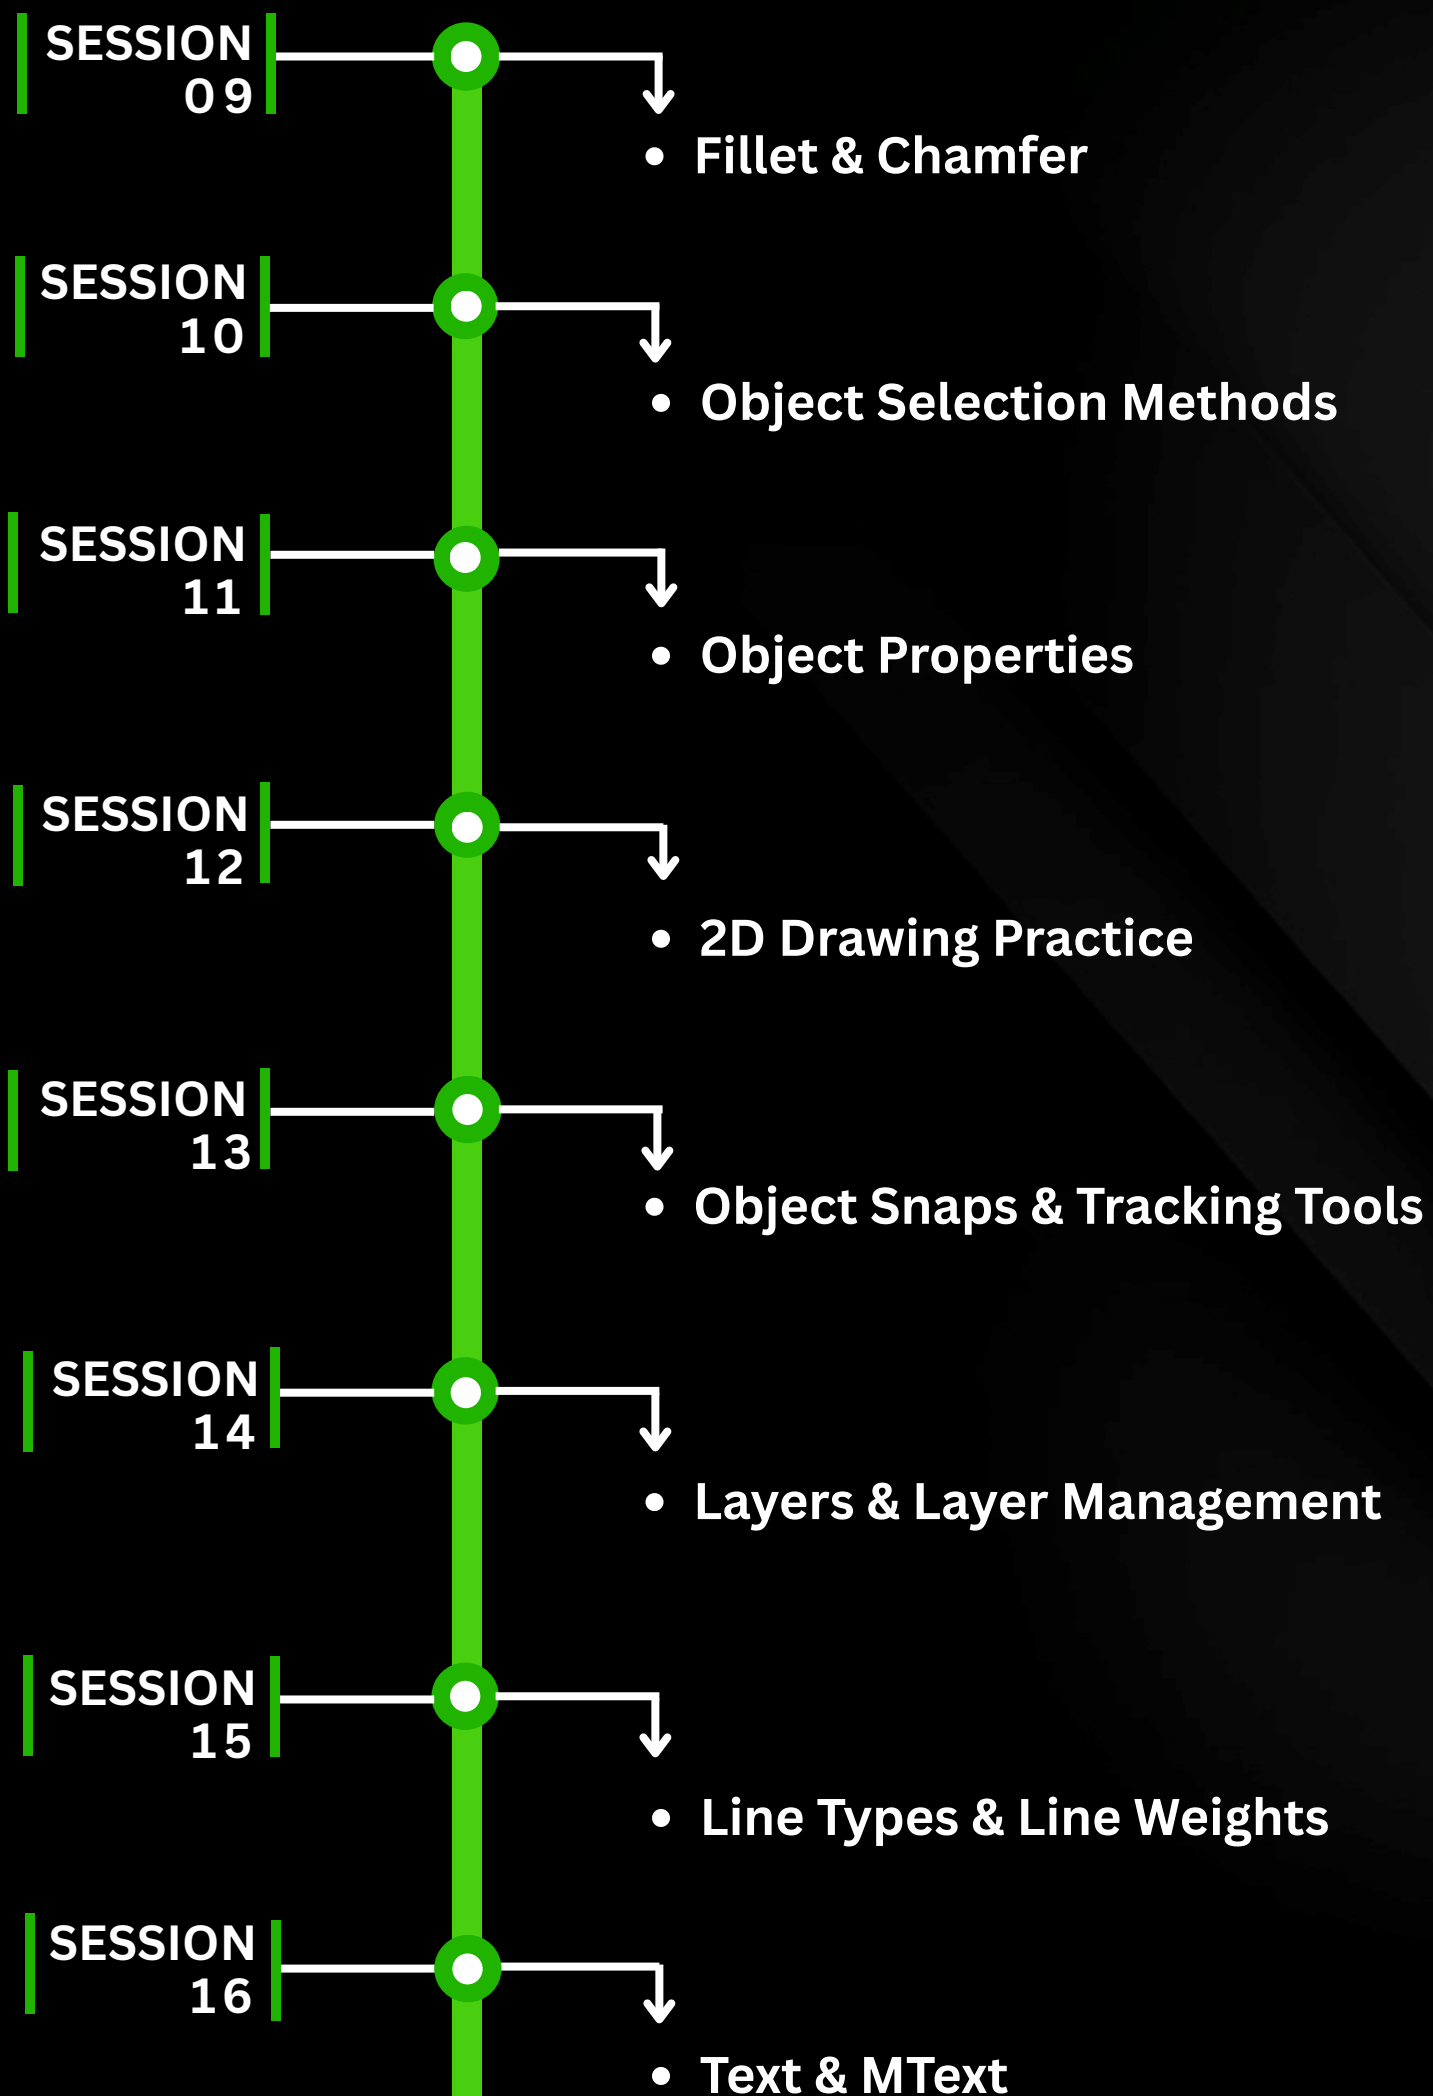

FlexCoders AutoCAD Live Intensive Program is a 3-month training focused on 2D Drafting, 3D Modeling, Technical Drawing, Design Standards, and Project-Based Learning with hands-on practice. It follows an industry-based curriculum with mentor support and regular doubt-clearing, making it ideal for students and freshers aiming for a career in Design and Drafting.

The program also prepares learners to become job-ready through mock interviews, real-time project exposure, and career guidance. With continuous mentoring, performance feedback, and interview-focused training, it builds strong designing and technical skills for aspiring AutoCAD professionals. It also provides exposure to industry tools and real-world design practices.
